## **COLER POSSIBLE** FOR PRESIDENT

Present Controller of New York City May Be in 1904 Race.

NEW YORK CITY'S NEXT MAYOR

Van Wyck Will Be Retired to Private Life at the End of His Term, and Bird S. Coler Will Very Likely Be His Successor.

An Interesting Fight.

(Special Dispatch to The Times.)
WASHINGTON, March 24.—Richard
Croker will return from Europe to New
York city with the discovery that his
political power has been greatly weakened during the last three months.
It is the desire of Mr. Croker to have

It is the desire of Mr. Croker to have Mayor Van Wyck renominated and reclected to his present effice. Mr. Croker will not succeed in his desire to name for a second term the aristocratic Knicker-bocker. There are two reasons why Mr. Croker will fail. They are as follows: (1) Mayor Van Wyck, the aristocrat, as he is, has not conducted affairs at the New York City Hall satisfactorily to the Tammany men. This is one time that Croker York City Hall satisfactorily to the Tammany men. This is one time that Croker raised his political standard just a little tee high to meet the approval of the Tammany brawes. (2) Having proved unsatisfactory, Mayor Van Wyck was be retired to private life at the close of his present term, and his successor, if it is possible to defeat Croker, will be Bird S. Coler, present Comptroller of New York city.

city.

THE NEXT MAYOR.

Mr. Coler is not in touch with Mr. Croker. He has several times announced that the 'bossism' of the Tammany chieftain did not meet his approval. He is, 'herefore, very much inclined to accept the nomination for the Mayoralty, and if he so decides it will not be an easy matter for Boss Croker, or for Mayor Van Wyck, to prevent his election. His nomination is assured and his election quite possible. If defeated at the pells, it will not be by Mayor Van Wyck, but by a Republican. by a Republican.

by a Republican.

The coming municipal fight in New York is one which will greatly interest pollticians in all sections of the country. Republican success in the next city campalgn would without doubt foreshadow. paign would without doubt foresmaon-Republican success in the Presidential campaign in 1904. The only method by which the Democrats can carry the State in the next Presidential campaign is by the next Fresidential campaign is by the nomination and election of Bird S. Coler as Mayor, and then advance him as a candidate for the Governorship against Benjamin J. Odell in 1993.

PRESIDENTIAL POSSIBILITY.
There are a great many Democrats in
New York who hold to the opinion that New York who hold to the opinion that the young Comptroller of the city of New York has more successful qualities as a politician and a cardidate than either Mayor Van Wyck or former Senator David Bennett Hill. Mr. Hill, not-withstanding that he has announced that he will not be a Presidential candithat he will not be a residential chandate in 1904, would accept the nomination if tendered to him by the delegates to the next Democratic National Convention. If, however, Comptroller Coler is nominated for Mayor of New York and is successful in his candidacy, and then with the covernorship and will a convent of the covernorship and will. nominated for the governorship and wlas, he will be considered an exceedingly available candidate for the Democratic Presidential nomination in 1904. As a matter of fact, if he can win these two coming political battles, he would be regarded by politicians, not only in the East, but in the South and West, as a man who could make a more successful fight in the campaign than could have

Hill.

STRONG BACKING.

Unless mistakes are made by Mr. Coler within the near future, his political star is certainly in the ascendant, and the Presidency is within his reach. Mr. Coler, if nominated for Mayor, Governor, or President, will have the support of at least two of the greatest newspapers in New York State. One of these is the New York Journal, of which William Randolph Hearst is the proprieor, and the other, the New York World, and the other, the New York World, owned by Joseph Pulitzer. With this newspaper combination back of him, it would appear to the casual observer that here is an opportunity for the bright young man who is now financial agent of Manhattan Island to reach even the

#### BUYERS WIN THE FIGHT.

#### The Tobacco Trade Decides What Warehouse Charges Should Be.

The Richmond Tobacco Trade held an adjourned meeting yesterday and took the final step in its reorganization. The charter was accepted a week ago and officers were elected and yesterday the

officers were elected and yesteriary the hys-kness were adopted.

The fight over the warchouse-charges on loose sales was decided in favor of the buyers. The seller is to pay ten cents weighing fee instead of eight and the

muchaser pays nothing. Capt. W. M. Bridges was re-elected inspector and Mr. E. A. Trice auctioneer.

The meeting of the Trade was called to order at 12 o clock. President Larus occuping the chair for the first time since his election. A reach attendance was reas election. A goodly attendance was present and many important matters were transacted. The by-iaws prepared by the committee of which Mr. F. D. Williams was chairman, were adopted, with a few changes. A spirited fight arose over one of the laws directing the inspector to inspect and place the official scal on all tobacco which he might be called to sample. A substitute was finally adopted giving the inspector power officially to inspect only the tobacco which is stored in bonded and licensed warehouses in

The question of warehouse-charges was reserved until the last, and precipitated a lively discussion. The buyers themselves appeared divided on the questions.

#### IT CAME BACK.

#### The Doctor's Wife Found Her Com plexion Again,

Coffee is no respecter of persons when it comes to the poisonous effects thereof. A prominent physician's wife of Montiveilo. Ind., says that coffee treated her very badly indeed, giving her a serious and painful stomach trouble and a

wretched, muddy complexion.

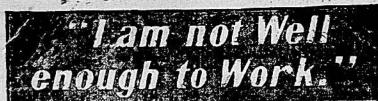

Her husband is a physician of the reg-ular school and opposed to both tea and coffee, so he induced her to leave them off and take on Postum Food Coffee.

The stomach trouble disappeared al-

most like magic, and gradually her complexion cleared up; now she is in excel-lent condition throughout.

There are thousands of highly organized people who are made sick in a va-riety of different ways by the use of coffee, and most of these people do not sus-pect the cause of their trouble. They think that others can drink coffee and are well, and they can, but about one person out of every three is more or less peisoned by coffee, and this can be proved by leaving off coffee and taking Postum Good Coffee. In nearly every case the Sisorder will be greatly relieved or cnfirely disappear. It is easy enough to make a trial and see whether coffee is a poison to you or not.

The name of the doctor's wife can be

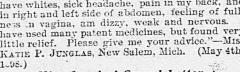

How often these significant words are spoken in our great mills, shops, and factories by the poor girl who has worked herself to the point where nature can endure no more and demands a rest! The poor sufferer, broken in health, must stand aside and make room for another.

The foreman says, "If you are not well enough to work you must leave, for we must put some one in your place.' Standing all day, week in and week out, or sitting in cramped positions, the poor girl has slowly contracted some deranged condition of her organic system, which calls a halt in her progress and demands restoration to health before she

can be of use to herself or any one else. To this class of women and girls Mrs. Pinkham proffers both sympathy and aid. When these distressing weaknesses and decongregate according to the control of the class of the and derangements assail you, remember that there is a remedy for them all. We have on record thousands of such cases that have been absolutely and permanently cured by Lydia E. Pinkham's Vegetable Compound, restoring to vigorous health and lives of usefulness those who have been previously sorely distressed. Here is one of them.

#### Miss Junglas' First Letter.

"DEAR MRS. PINEHAM: -As I have heard and read so much about "Dear Mrs. Pinkham:—As I have heard and read so much about your wonderf, medicine I thought I would write to you and tell you all about my sickness. I have been sick for four years with womb trouble, have whites, sick headache, pain in my back, and in right and left side of abdomen, feeling of fullness in vagina, am dizzy, weak and nervous. I have used many patent medicines, but found very little relief. Please give me your advice."—Miss Katie P. Junglas, New Salem, Mich. (May 4th, 1.98.)

#### Miss Junglas' Second Letter.

"DEAR MRS. PINKHAM:-I write to thank you "Dear Mes. Pinkham:—I write to thank you for the good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. It is now six years since I was taken sick. I had falling of the womb and ovarian trouble, I suffered untold pains, sometimes was so bad that I thought I could not live. I used the Vegetable Compound faithfully and am now well. If you like, you may use my latter for the benefit of others,"—Miss Katie P. Junglas, New Salem, Mich. (May 12th. 1900.)

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass, 85,000, which will be paid to any person who will show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—Lydia E. The warehousemen are rather depressed over their defat. They made a strong fight before the Trade yesterday to have the old charges resumed, but falled to accomplish anything. The contest is now finally ended and there is recthing for them to do but submit. nothing for them to do but submit.
